

Wednesday 16th January 2013

Dear Parents/Carers

Safety Week

Next week is Safety Week in school. While we will be learning about all aspects of safety through the curriculum we will be having a special focus on **e-Safety** and teaching all children about how to be safe when using the Internet.

We have produced a guidance document for Parents/Carers which explains our policy as a school and some handy hints for supporting your children when using computers at home. Please take time to read it carefully, particularly the section about parent' use of cameras and technology.

Should you have any questions about how technology is used in school either contact me through the school office or jot your question down and return the form below to your child's class teacher and I will contact you.

Yours sincerely

Mrs D Da-Costa
Assistant Headteacher (ICT Leader)

If you have any comments/questions regarding e-safety or any other safety aspect to do with school please complete the form below and return to your child's teacher.
